## RADIO PRESS RELEASE

The Minister of Public Health, **Dr MANAOUA Malachie**, hereby informs the general public that discussions and working sessions concerning the professional training of Nurses, Midwives and Medical-Health Technicians are in progress since a while now, with the valuable and indispensable contribution of the Order of Medical-Health Professions and the Ministry of Higher Education.

In this regard, he would like to clarify that the main aim of these working sessions is to speed up the reorganisation and harmonisation of training of medical-health professions, which should satisfy the needs of Cameroon's healthcare system.

The Minister of Public Health invites all stakeholders to adopt a reserved stance during the current finalisation phase, which should reach to an official communication from the two heads of ministerial departments.

*Dr. Manaouda Malachie*
